Subject: Re: Quick Reference Guide for the Revised Total Coliform Rule

I have serious confrontations with the three villages at First Mesa. (Walpi, Sichomovi & Tewa). I understand Bernie have been sponsoring meetings to take over the water system. I don't disagree with the water system takeover but wrote letters to her stating she must submit a proposal. It would also be helpful the she meet with us to brief her on the water operations. The property is currently owned by FMCV and will require the transfer approval of the FMCV Traditional Leaders. I will be meeting with the leaders to inform on the issues with water, mainly misinformation to the village members. Our compliance issues and arsenic are the primary issues past on to the public, including the Hopi Tribal Leadership. You worked with Bernie when she was the Business Manager at FMCV. These non-compliance issues date back to 2008. We have corrected most of these issues in the past two years. They all recently received more of your emails and this is what triggers Bernie's coop. This email is send to you because I will inform the leadership the details of what is politically occurring including the use of your direct EPA information provided to them. I'm now working on trying to provide owner ship and title information to your enforcement office. I will need to involve the Hopi Tribal General Counsel, Bureau of Indian Affairs and Indian Health Service on this request,. This is the first time a village is asked directly for this information.

Ivan

Subject: Quick Reference Guide for the Revised Total Coliform Rule

Just a heads up. Headquarters has developed a Quick Reference Guide for the Revised Total Coliform Rule (RTCR), which all public water systems will need to comply with on **April 1, 2016**. The guide is located at:

<http://water.epa.gov/lawsregs/rulesregs/sdwa/tcr/upload/epa815b13001.pdf>

There will be training about the RTCR at the USEPA drinking water conference in May 2015. I will also be talking to the individual water systems throughout this next year about RTCR.
